PROGRAM DEVELOPED BY:

DEMCON.ca
WELCOME TO THE ONTARIO DISASTER & EMERGENCY MANAGEMENT CONFERENCE!

The Ontario Disaster & Emergency Management Conference, (DEMCON), is Canada’s premier event providing best practices and critical lessons learned for emergency management professionals. The Program featuring over 30 renowned speakers from across North America, is planned and developed by the Ontario Association of Emergency Management, the Canadian Red Cross, the Canadian Risks & Hazards Network, the International Association of Emergency Managers, the Office of the Fire Marshal and Emergency Management (Ontario), and the Ontario Municipal Social Services Association.

What are the long-term psychosocial impacts of a major tragedy?
(Find out Thursday 1:40pm – 2:40pm)

How does technology enable citizens to form networks in crisis?
(Find out Wednesday 3:40pm – 4:30pm)

WHY ATTEND

DEMCON is an opportunity to build important relationships with knowledgeable peers and strengthen your emergency management program from relevant speakers and organizations.

- Share best practices
- Case-based lessons learned
- Network with peers
- Easy access from major highways 401, 407, 427
- Low conference special hotel room rates
- Convenient airport location with FREE PARKING!

Adds up to Value for Your Time!

HOLIDAY INN
970 Dixon Road, Toronto, ON  M9W 1J9
SPECIAL RATE $149 per night
Deadline for reservations Monday September 16, 2019
Call 416-674-4343
Vincent Davis, Author, Consultant and Founder/Preparedness Matters Network Corporate Manager, Workplace Resilience, Amazon

**Full Speed Ahead: Navigating the Complexities of Corporate Emergency Management**

Emergency Managers that are new to corporate settings, or those who are considering a career path outside the public arena, are often lost when public sector textbook approaches fail in ‘real world’ companies. Practical problem solving and navigating companies involves more than just visualization or applying the latest best practices or proven techniques such as ICS. Intuition, understanding corporate cultures, and knowledge of the advantages and limitations of corporate emergency management can mean the difference between a successful career in the private sector and a catastrophic failure. Drawing from problem solving techniques in divergent corporate cultures, we will walk through examples that illustrate how to come up with creative solutions and solve problems and apply the knowledge and skills that are unique to our profession.

**WED. OCT 9**

**8:15AM - 9:15AM**

**KEYNOTE SPEAKERS**

**Sheri Fink, M.D., Ph.D., Pulitzer Prize-winning Author and Reporter, Five Days at Memorial; New York Times**

**Emergency Preparedness & Response: Case-Studies that Demonstrate the Value of Situational Awareness**

Dr. Fink shares two real-world case studies that demonstrate the value of situational awareness, the complexities of prioritizing limited resources, and the importance of ensuring systems can effectively support operational decisions. This presentation, based on the book Five Days at Memorial and experiences in recent disasters, will bring participants into a hospital fighting for life and into some of the most charged questions in health care. The ethical tenets of autonomy, beneficence, non-maleficence, and justice come into conflict. Participants will be asked to consider whether crises sometimes make it necessary to break with ethical rules and professional standards -- or whether exceptional times call for exceptional commitment to our deepest moral values.

**WED. OCT 9**

**12:45PM - 1:45PM**

**Vincent Davis, Author, Consultant and Founder/Preparedness Matters Network Corporate Manager, Workplace Resilience, Amazon**

**Social Reconstruction after the Lac-Mégantic Tragedy: A Review of the First Five Years**

On July 6th 2013, a train carrying 72 cars of crude oil derailed in downtown Lac-Mégantic. This disaster caused 47 deaths, the destruction of 44 buildings, the evacuation of 2000 persons, and an unparalleled oil spill. The presentation aims to describe, and learn from, public health strategies developed to enhance community resilience following the train derailment. Over the first years, the Eastern Townships Public Health Department (PHD) has undertaken several actions, including the monitoring of physical and mental health consequences. A multi-sectoral action plan was developed to maintain and adapt psychosocial services to individual and community needs, stay connected with the community, and foster community engagement. Various concrete initiatives arose from the action plan, all of which contribute greatly to empower citizens and mobilize the community.

**THURS. OCT 10**

**1:40PM - 2:40PM**

**MéliSSa Générixeux M.D., M.Sc., F.R.C.P.C.** Public Health Director, Eastern Townships Integrated University Center in Health and Social Services - Sherbrooke Hospital University Center, Associate Professor, Department of Community Health Sciences, Faculty of Medicine and Health Sciences, Université de Sherbrooke
